Athlete Health and Responsible Weight Management

- Category 1 Riders: Weekly pre-event weigh in (90-45 min before start): Maximum in game weight loss will be capped at 1.0 kg per week.
- All Other Categories: Monthly 30 min* post Final event weigh in: Maximum in game weight loss will be capped at 2.0 kg per month.

If riders weight changes more than set limits, they will not be ANL, however the weight reduction will be capped as per above. An example – A rider was 68kg in March and April weigh in is 65kg. The rider will have a maximum weight reduction of 2kg, race weight for May will be 66kg. Rider weight reflected in game will only decrease as per limits. The weight caps are in place to promote gradual, sustainable changes and to help reduce riders feeling the need to manipulate weight in unsafe ways, such as dehydration or "sweat outs," which are considered both unhealthy and against the spirit of fair play to achieve in game performance improvements.

More information can be found in APPENDIX – H of the [MyWhoosh Cycling Esports Rules and Regulations](#).

Riders can apply to have a weigh cap increase in extenuating circumstances via race control racecontrol@mywhoosh.com.
